

MEDIASTAND®

MEDIASTAND 60 SECONDS

Ready for use within 60 seconds! The unique concept has proven itself worldwide. Quick and simple portable Folding Tents (also known as Pop - Up Gazebos, Instant Marquees and Canopies) - for both outdoor and indoor use. Attractively designed, they can be used individually or linked together and provide the ideal medium for branding and advertising.

Mediastand® Folding Tents are manufactured entirely within the EU and are among the best on the market.

They are attractively designed, multifunctional and safe in use. We have 40 experienced and qualified seamstresses in own production facility to produce your customized Folding Tent.

- ✓ Top quality, Italian designed, aluminum frames
- ✓ DobbyFlex™ fabric with Teflon® coating
- ✓ In-house design and printing
- ✓ Free 'photo-realistic' 3D design
- ✓ Delivery within 10 working days

MEDIASTAND SERIES X43

An extremely stable aluminum frame for professional and intensive all - weather use. Manufactured from a solid, octagonal 43 mm base profile with 2.5 mm wall thickness.

A great deal of care is paid to even the smallest details of functionality and design. This is the Ideal frame for the demanding, professional user in the event industry.

Mediastand® Folding Tents are manufactured entirely within the EU under strict quality regulations and comply with all the applicable safety requirements. We guarantee problem-free use and give a 5-year warranty on the materials and production faults. We provide a lifelong guarantee against corrosion.

Series X43 Folding Tents are available in six sizes:

Size	Weight*	Height of ** entrance	Maximum overall height	Packed dimensions
3x3 m	37,7 kg	201 cm	325 cm	40x40x157 cm
4,5x3 m	44,8 kg	201 cm	325 cm	45x60x157 cm
6x3 m	60,5 kg	201 cm	325 cm	68x40x157 cm
4x4 m	46,1 kg	215 cm	388 cm	40x40x204 cm
6x4 m	55,2 kg	215 cm	388 cm	54x40x204 cm
8x4 m	72,2 kg	215 cm <td>388 cm</td> <td>70x46x204 cm</td>	388 cm	70x46x204 cm

SERIES X43

MEDIASTAND SERIES X30

A competitive aluminum frame for general or occasional use. Manufactured from a square 30 mm base profile with 2 mm wall thickness.

Combined with (full colour) branding, this is an ideal choice for promotional purposes. The lightweight, yet robust frame provides great value for money.

Mediastand® Folding Tents are manufactured entirely within the EU under strict quality regulations and comply with all the applicable safety requirements. We guarantee problem-free use and give a 5-year warranty on the materials and production faults. We provide a lifelong guarantee against corrosion.

Series X30 Folding Tents are available in three sizes:

Size	Weight*	Height of ** entrance	Maximum overall height	Packed dimensions
3x3 m	23,6 kg	201 cm	325 cm	30x30x158 cm
4,5x3 m	30,4 kg	201 cm	325 cm	45x30x158 cm
6x3 m	43,3 kg	201 cm	325 cm	56x30x158 cm

*Weight including frame bag and tensioning set **Standard size adjustable

MEDIASTAND DOBBYFLEX™

Working with leading manufacturers, we developed DobbyFlex™, the ultimate and ultra strong 100% polyester fabric. DobbyFlex™ has exactly the right elasticity, which enables us to produce perfect fitting roofs.

The combination of elasticity and tension of the roof ensures that any rain runs right off (no 'puddles' in the roof!). We also use first - class impregnated stitching yarns, which improves the watertightness of your roof.

DobbyFlex™ fabric is available in two qualities and 12 standard colours:

DobbyFlex™ 250 180 gr/m²

DobbyFlex™ 500 Teflon® 280 gr/m²

DobbyFlex™ fabric has been successfully tested to DIN and ISO norms in relation to colour fastness, tensile strength, tearing resistance and deformation.

These tests also prove that DobbyFlex™ fabric is 30% stronger than similar fabrics from other producers!

DobbyFlex™ fabric is UV stabilized, waterproof because of the PU coating and flame retardant according to EU norm EN 13501-1:2002.

DobbyFlex™ is treated with Dupont™ Teflon® Fabric Protector.

DobbyFlex™ is a registered trademark.

MEDIASTAND ROOFS

We've been developing and refining our roofs since 1993. We have our own dedicated production facility and believe that we make the best roofs on the market!

The shape of your roof, in combination with the right fabric is not only a design matter, but also prolongs the lifetime of your Folding Tent. Our seamstresses have the skills and machinery to effect this.

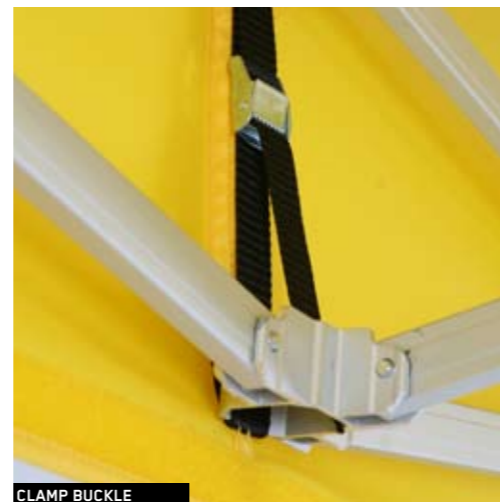

Each Mediastand® roof is produced individually and can be designed by yourself in a few easy steps:

- The size
- The colour
- The fabric quality
- The style
- The branding

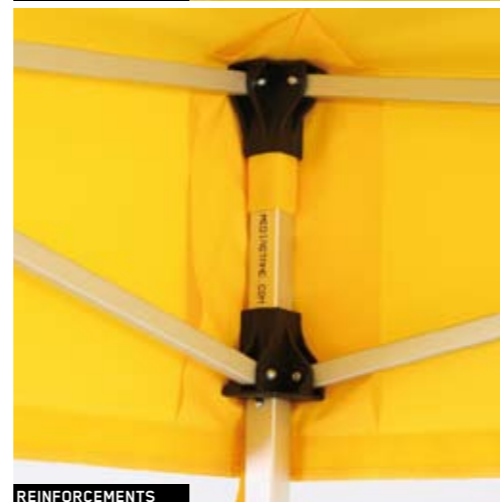

Mediastand® Folding Tents are offered with carefully selected accessories in matching colours, such as: Velcro, zippers, bias, etc.

Roofs are packed un-mounted to avoid damage during transport. Every roof is delivered separately, in its own, sturdy cardboard box.

Your custom-made Folding Tent will be delivered ready-made within 10 working days!

MEDIASTAND BRANDING

A Mediastand® Folding Tent not only offers many practical advantages. With the huge choice of DobbyFlex™ fabric colours available for roofs and sidewalls plus customized printing up to 60m2 on PVC roofs and sidewalls, it can really steal the show for you at all events.

The best printing process for the optimum result is determined in consultation with you and depends on your design wishes, available files and budget: This can be full-colour digital printing, silkscreen printing or transfer printing.

Roofs and sidewalls are manufactured from 100% polyester or PVC fabric. Sidewalls can also be delivered in PVC Block-out with double - sided printing.

Mediastand tent roofs and sidewalls are designed and produced completely in-house, including any printing.

We have the knowledge and experience to provide you with the perfect customised solution!

Free 3D design

Once we have discussed your needs (and received any relevant artwork), we will present you with a free, individual 3D design + quotation. This means that your purchase will not just be a leap in the dark but based on a detailed 3D design!

This digital design will give you a realistic, photographic impression of what your finished Folding Tent will look like.

This allows you to make the correct final choices, especially if printing is involved.

MEDIASTAND SIDEWALLS

Protection from the sun, shelter from the rain and wind or to provide privacy? Mediastand® sidewalls are quick to fit to any type and size of Folding Tent using Velcro tape and a handy zip system.

Mediastand® sidewalls are available in four types: standard, with window, with door and as railskirt (half height).

All standard Mediastand® sidewalls are available in sizes 3m, 4m, 4.5m and model 6x4. Non-standard sizes available on request.

Mediastand® sidewalls are supplied in fabric quality DobbyFlex 250 and are packed separately in a carrying bag. Other fabric qualities can be selected at additional cost, such as DobbyFlex 500 with a Teflon coating - or 400 grams PVC fabric.

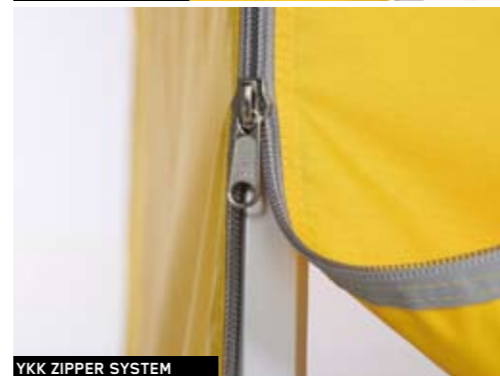

Custom-made sidewalls? We offer various options to increase the sophistication of your Folding Tent! For a complete overview, please visit our website www.mediastand.com

MEDIASTAND ACCESSORIES

Mediastand® offers many useful accessories to optimize the use of your Folding Tent(s).

Our philosophy is simple: we do not supply accessories that you have not asked for or don't want, yet would still have to pay for. Instead, you decide which accessories suit your particular requirement and then just order what you need!

Handy accessories such as foot plates, rain gutters and connection clamps guarantee a safe and comfortable set-up of your Folding Tent(s). See our website for configuration examples.

MEDIASTAND MANUAL

STEP 1
PLACE YOUR FOLDING TENT AT THE DESIRED LOCATION

STEP 2
REMOVE THE PROTECTIVE COVER OR FRAME BAG

STEP 3
PULL THE FOLDING TENT OPEN FROM BOTH SIDES, UNTIL THE FOOTPRINT SIZE HAS BEEN REACHED

STEP 4
THE FINAL POSITION HAS BEEN REACHED, ONCE THE PEAK POLE IS COMPLETELY THRUST OUT

STEP 5
SLIDE THE SLIDER ON EACH LEG UPWARDS

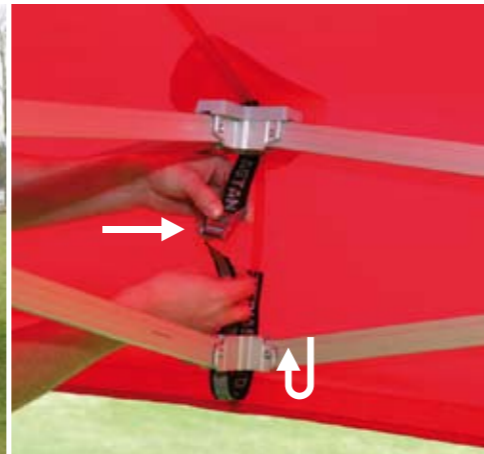

STEP 6
THE CORRECT POSITION HAS BEEN REACHED WHEN THE SLIDER CLICKS OVER THE LOCK PIN

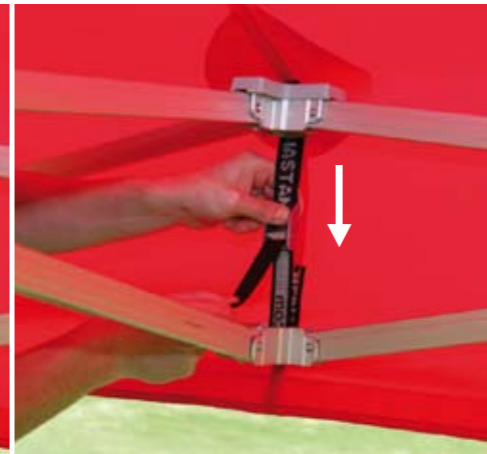

STEP 7
PUT A FOOT ON TWO NEIGHBORING FOOTPLATES AND SIMULTANEOUSLY SLIDE TWO LEGS UPWARDS UNTIL THEY LOCK

STEP 8
REPEAT FOR THE OTHER SIDE

STEP 9
PUT THE STRAP THROUGH THE FRAME JOINT AND THEN THROUGH THE CLAMP BUCKLE

STEP 10
PULL THE STRAPS DOWN UNTIL THE ROOF REACHES THE RIGHT TENSION

STEP 11
YOUR FOLDING TENT IS NOW READY FOR USE

STEP 12
ATTACH THE (OPTIONAL) STRAPS TO THE LOOPS FOR EXTRA STABILITY IN CASE OF STRONG WIND
